Title : (Ph.D. - Dr. phil.)
Name: Iyad Muhsen AlDajani

Personal Information

- Single
- Jordanian Nationality
- Date of Birth::18th of May 1979
- Bachstrass 33, Jena , Germany
- Israel home address Jafa Road 1590 , East Jerusalem – Israel
- Israel mobile : 972543100994

Education

B.Sc. Computer Science, Master of Arts in Regional Studies, and American Studies, Web Developer from HakerU Tel-Aviv. Executive Master from Harvard Kennedy School in Leading in Artificial Intelligence: Exploring Technology and policy & Cybersecurity, the Intersection of Policy and Technology. Reference Class Forecasting from Oxford Global Academy in Oxford University, Graduate in Oxford Artificial Intelligence Program from Said Business School, Oxford University, Ph.D. in Applied Digital Humanities for Reconciliation and peacebuilding from Friedrich Schiller - University in Jena

Al Quds University, Jerusalem
1997-2001

Masters of Arts, American Studies Institute
Thesis: Impact of Media on Democracy
2002 - 2004

Hacker University Tel-Aviv,
WebMaster Professional
2011-2013

Seeds of Peace Portland the USA
Seeds of the peace facilitation course
2005 -2007

Friedrich Schiller University
Degree: Dr.Phill (Doctor of Philosophy in communication science)
Internet Communication Technology for Reconciliation,
Applied Phronetic Netnography in Internet Research Methodologies
(447 Pages, English Language).

Specialization: Applied Phronesis in internet research, Communication Science in Internet Research Methodologies and Qualitative analysis (2014 – 2019)

Oxford Said Business School - Oxford University

Artificial Intelligence Development Program (2019 – 2020)

Harvard Kennedy School Executive Education

Artificial Intelligence: Exploring Technology and policy & Cybersecurity in the Intersection of Policy and Technology. (2020 – 2021)

Oxford Global Academy - Oxford University

Reference Class Forecasting - Transdisciplinary Approach (2022)

Internet Communication Technology for Peace ICT4Peace Academy

ICT for crises and security management - 2016

Executive Assistance and Marketing Manager in East Jerusalem

2010 - Jan until Dec. 31st . Consulting Industrial & Trading Investment - (C.I.I.T.)
Executive Assistance and Marketing Manager in East Jerusalem

2011 - Jan until Dec. 31st . Consulting Industrial & Trading Investment - (C.I.I.T.)
Executive Assistance and Marketing Manager in East Jerusalem

2013 - Jan until Dec. 31st .Consulting Industrial & Trading Investment - (C.I.I.T.)
Executive Assistance and Marketing Manager in East Jerusalem

2013 – until 2018 Ph.D. Candidate in final years.
Half a Position as an Academic Researcher and Professor Assistant at Jena Center for Reconciliation Studies. At Friedrich Schiller University in Jena Germany

2014 - Jan until Dec. 31st Consulting Industrial & Trading Investment - (C.I.I.T.)

Half Position Manager and Marketing Assistant in East Jerusalem
2014 – 2016. Jan until Dec. 31st Budget Manager & Consulting
Wasatia NGO, Auditor and Budget Manager for the Trilateral Project
Heart of Flesh, not Stone. (Two years).

2018 - Jan until Dec. 31st

Project Coordinator for the Academic Alliance for Reconciliation in the
Middle East and North Africa at Jena Center for Reconciliation Studies
at the Friedrich Schiller University in Jena Germany.

2019 – Supervising master students in computer science at the university of
Jordan -Amman until present .

Researching Artificial intelligent in social sciences.

2020 – Executive Director and scientific researcher at the Academic Alliance for
Reconciliation in the Middle East and and North Africa center at Friedrich Schiller
University .

Project Manager “ Academic Alliance for Reconciliation in the field of
higher education for Peace, Conflict Transformation and Reconciliation
Studies in the Middle East and North Africa” .

2021 – Participating at the Oxford Artificial Intelligence Program at the University
of Oxford.

Artificial Intelligence research and development 6 Modules to learn
about the advancement and development of AI .

Software Development
and Programming

Stock Control Software Application Oracle Forms.

Hotel Reservation System (Web-Based), with DBA

Hotel Management System (Software Application)

Jerusalem Guiding Website For Tourism. (Software Application)

Documentation on Object-Oriented Terminology

Research and Software Developer for Palestinian Laws.

Research and Software Developer for Jordanian Laws.

ISBN Software Developer for Palestine- ISBN numbers

Website Developer.

Content Management Web- Based Developer Php Programmer in Jommla and
word press.

Additional and
Professional
Activities

Certified Shell Programming on Unix Platform.

Certified System Administration on Unix Platform.

Certified Web Developer.

Oracle Certified Professional on Developer 2000

Telecommunication Expert at Voip line -Telecom - Israel

Project Management Course- Graduate Academy – Friedrich Schiller University.

Leadership in Industries Course- Graduate Academy–Friedrich Schiller University.

Leadership in Academia Course, Plan B - Graduate Academy – Friedrich Schiller University.

Proposal Writing - Graduate Academy – Friedrich Schiller University.

Social Media in crises management course - ICT for Peace Institute.

Instructor at the Graduate Institute at the Friedrich Schiller University,

Course Taught: “Online Social Network Analysis with Big Data Using Nvivo 11 for Windows at the Friedrich Schiller University.

Paper Accepted for Doha Institute conference 2017: The Phenomenology of Internet Communication Technology for Social Change Towards Reconciliation Process.

Paper Accepted by Vertex Research Foundation: The International Conference for Multidisciplinary Perspective & Optimization in Finance, Law and Social Science.

Conference on Alternative Ways for Reconciliation in Zurich: Conference on alternative ways for reconciliation.

Association of Internet Research Conference in Estonia – 2017: Visual Online Social Network Analysis and Methodologies

Transitional Justice Conference in Jerusalem: ICT for Transitional Justice 2016.

The International Peace Conference in Tel-Aviv: Presenting paper about “consequentialism ethics to pave the way for reconciliation in the middle of the conflict.”

Co Supervising a Master Student in computer science at the University of Jordan in Amman Jordan.

Professional Website

Invited to give a lecture about Applied Phronesis in Internet Communication Technologies - Queensland Institute of Technology in Brisbane Australia

Professional memberships

Member of Association of Internet Researcher AOIR

IEEE MEMBERSHIP 2000- 2002

Oracle Developer

Nvivo for Windows Certified Analyst.

Research Topics/Areas

- Coordinator of the Doctoral School Reconciliation, Conflict Transformation and Peace studies at Friedrich Schiller university
- Project coordinator for the Academic Alliance for Reconciliation in the Middle East and North Africa / 2019 and 2020.
- Internet Communication Technologies for Reconciliation in the middle of conflict.
- Applied Phronesis in Internet Communication Technologies.
- Applied Ethics in Data Science
- Applied Digital Humanities in reconciliation and peacebuilding studies and process.
- Reconciliation in Islamic Ethics.
- Project Researching the following:
 - Dialogue with the Islamic world- Applied Islamic ethics in reconciliation studies with Oberlin Collage
 - Artificial Intelligence Ethics for Reconciliation and pacebuiding.
 - Applied Phronesis in Internet Research Methodologies.
 - Reconciliation in the Middle of Israeli-Palestinian Conflict.
 - Reconciliation in the Middle of conflict.
- Project Manager for the Following Erasmus Plus Project:
 1. Strengthening Conflict Resolution and Reconciliation studies in Palestine.
 2. Reconciliation, Conflict Transformation and Peace Studies in Jordan, Palestine,Algeria.
 3. The Academic Alliance for Reconciliation in the Middle East and North Africa.
- Dr. AlDajani ORCID is <https://orcid.org/0000-0002-1489-2551>

Teaching (at the FSU Jena)

- Supervising Doctoral candidates proposal and coordinating for the doctoral school Academic Alliance for Reconciliation, Conflict Transformation and Peace Studies at Friedrich Schiller University

- Teaching at the Graduate Academy course on Qualitative Analysis with Nvivo for windows tools and applications.
- Co-Supervising Master Students in computer science at the University of Jordan as external supervisor 2019,2020 and present.

Short Bio

Academic title: (Ph.D. – Dr.Phil.)Doctor of Philosophy, published book: Internet Communication Technologies for Reconciliation Applied Phronesis in Internet Research Methodologies.

Executive & Research director for the Academic Alliance for Reconciliation in the Middle East and North Africa AARMENA www.aarmena.uni-jena.de Coordinator for the doctoral school Reconciliation, Conflict transformation and Peace Studies. Friedrich Schiller University (from 2019- present.) Post-Doc at Jena Center for Reconciliation Studies in Friedrich Schiller University (01.09.19 – 2020).

Dr. Iyad Al-Dajani is a very innovative and creative researcher in the field of overcoming violence, religious peacemaking, and reconciliation through applied Internet communication technologies and online social networks and media. He researches Data science (Big-Data) in all its innovative studies such as methodologies and analysis, mostly concerned with applied ethics in Data science (Big-Data). In the Middle East, he has also become one of the most important activists working in that field of data science towards reconciliation, conflict transformation and transitional shifts towards reconciliation process.

Academically he benefits from an unusual interdisciplinary study-career. He earned his bachelor's in computer sciences and a master in regional studies and American Studies at Al Quds University and became also webmaster developer as he earned his master's in a web-development certificate from HUniversity in Tel-Aviv. He is also a certified analyst using Nvivo for Windows in applying academic research methodologies for researching Big Data- Data science. Dr. AlDajani constantly increased his competences on both fields through practical work on Internet Communication Technologies (ICT) , and practice philosophy through realizing and writing the Applied Phronesis in Internet Communication Technologies as well as through longer stays in the USA and researching aspects of Digital Methods for internet research. Dr. Dajani had completed his Ph.D. and enrend the title of Dr. phil. for recognition for his academic book by Fredrich Schiller University , his research area is published by Springer the book title is Internet Communication Technologies for Reconciliation, Applied Phronetic Netnography in Internet Research Methodologies.

He also worked with different interventions and methods on those social media and internet research methodologies and analysis; he also decided to go deep into the extremely dynamic field of scientific approaches to internet Big Data. He started with the Applied Phronetic approach to scientific work by Oxford scholar Bent Flyvbjerg and with the renewed Media Content Analysis by Klaus Krippendorff. He found himself other important approaches such as Netnography for Professor Robert Kozinets and Mixed Method Research Design for online social network analysis and constructed himself an innovative and very powerful integration of those methods, combining methodologies to develop the Qualitative Internet Research Methodology conducted to Big Data.

Dr. ALDajani integrated his theory of applied Phronesis in internet research methodologies with his synthesis approaches; he arrived to attract the attention of scholars such as Robert Kozinets and Bent Flyvbjerg to this new synthesis. In addition to that, he formulated a plan how to operate the multiple elements of reconciliation for ICT for social change in the middle of conflict, as a mechanism for reconciliation, and to create social change towards the reconciliation process in the middle of a conflict.

He is also a scientific coordinator of the JCRS entrusted with the cooperation program with universities in the Middle East and North Africa. His work at JCRS cooperated the initiation of an "Academic Alliance for Reconciliation in the Middle East and Northern Africa" (AARMENA). Which is coordinated and directed by ALDajani. Concerning the Internet Research Methodologies, Dr. ALDajani would be interesting, because he is a very innovative researcher in the dynamic field of ICT in interdisciplinary fields. Internet communication technologies for radicalization as well as de-radicalization that often both starts on the internet. Therefore his research is highly relevant for the development of the MENA-region. He is a member of the Association for Internet Researchers (AOIR) and was part of the discussion in the workshop at the conference for Visual Analysis Methodologies.

Today Dr. ALDajani is a postdoc with a half position from an Erasmus Plus project, "conflict resolution and reconciliation capacity building project in West Bank, Palestinian Authority" the project is with cooperation with Arab American University, Hebron University, Gaza University, and Friedrich Schiller University. He is also the project coordinator and executive director for the AARMENA Project, that consists over 108 members of scholars in the field of reconciliation in the MENA region and over 32 higher education institution in the MENA, Europe and US and Australia, UK.
