General description :	We had a meeting at the Information technology collage, we met with dean of the university of information technology collage, at university of Jordan, we meet with the students and professors. We met with the master students at the university of Jordan an discussed some topics with them. We went to Petra University, we met with the president of the University, the dean and the team, and the students. It was very important to discus the advancement of the master programs and to discuss with the efforts with the team and to meet in the new and old students.
Challenges and comments:	It was very important to meet with the new staff at Petra University, because the staff at the University of Petra was changed due to new regulations at the university.
Networking:	At university of Jordan, we met with the vice president of the university of Jordan, the dean and students, and it was obvious the need to meet them, and to reconnect with them, and also meet affiliated new students. At Petra University we met with the president and the dean and the team, it was very important to meet with them, and reconnect and introduce the project, and the achievements, to make sure both universities stay on track.
